

**November 26, 2008**

**For Immediate Release**

**\*\*SABIS.net Launched with New Design\*\***

SABIS® recently launched its newly-designed website, [www.sabis.net](http://www.sabis.net). The website has been reviewed in terms of structure, content, and design to be a better vehicle for SABIS® to promote its vision to make a difference in students' lives.

As a result of the restructuring, browsing the site has become quite easy and user-friendly. From the main page, users can either log in directly to the websites of SABIS® schools around the world or find information on SABIS® corporate branches in the Middle East and Africa or North America and Europe.

Some of the key features of the newly designed site include:

- Quick access to all SABIS® members schools' addresses
- Downloadable brochures and videos
- Updated press releases and testimonials
- Extensive photo gallery showing the world of SABIS®

In addition, each of the site's sections provides comprehensive information about the various aspects of the SABIS® Educational System. At anytime, visitors can go back to the SABIS® main page to log in to the schools' websites or to another corporate branch.

The newly designed site will help visitors gain a deeper understanding about SABIS®, a global education management organization that is transforming the quality of education worldwide.

To view the newly designed website, please visit [www.sabis.net](http://www.sabis.net).
